**Portable 5 Gas Analyzer Testing**

The Emissions Research and Measurement Division of Environment Canada has completed the verification testing of several portable 5 gas analyzers at their facilities in Ottawa.

The following units have successfully met all the requirements as outlined in the **Performance Requirements and Verification Test Procedures** document as developed by the Equipment Sub-committee of the AirCare Program:

**SPX/OTC Genisys with Version 1.2 software****Vetronix Model PXA - 1100 with Version 1.11 US software****Interro Model PDA 5GBD****Infrared Industries FGA 4000XD/S****Snap-On FGA**
